

# TECHNOLOGY OVERVIEWS, WORKSHOPS, SEMINARS

## AVID Workshop

Avid Media Composer  
Version 5 & ISIS 5000

This series of workshops, seminars and test drives is an opportunity for CTM Solutions and its partners to get together and propose themes and subjects that preoccupy the people in our industry. The initiatives of our industrial hub and our industry partners have

helped us to bring to the surface new ideas about how to work to be successful in the future. We have a large scale show-room as well as numerous smaller presentation rooms for organizing these types of events.

## APPLE Workshop

Apple OS X  
ecosystems

## ETALONNAGE Workshop

Digital color-grading and  
oscilloscope usage

## AVID DS Workshop

Community & press  
Avid DS 10.5
