

# Avid Puis-je utiliser un Dongle ou une licences Media Composer 7.0.x

Écrit par Josselin Millecamps  
 Mercredi, 18 Septembre 2013 11:01

Vous êtes nombreux à vous poser la question de savoir s'il est possible de continuer à utiliser une ancienne version de Media-Composer avec un dongle ou une licence software de [Media Composer V7.0.x](#)

: les versions Media Composer 6.0.4 ou 6.5.3, Symphony 6.0.4 ou 6.5.3, & NewsCutter 10.0.4 ou 10.5.3 ont été ipdatées pour autoriser l'utilisation d'une licence soft ou dongle

[Media Composer 7.0](#)

. :

Il est ainsi possible de mettre à jour votre licence ou votre dongle en [Version 7.0.x](#) tout en continuant à utiliser une version anterieure. Il est à noter qu'un dongle ou licence software en version 7.0.x ne permet pas de lancer une version symphony anterieure à la Version 6.x.

VOUS POUVEZ LANCER		Media Composer	
7.0	Media Composer		
7.0: Interplay Edition	Symphony		
Option	Media		
Composer			
6.5.3	Media		
Composer			
6.0.4	Symphony		
6.5.3	Symphony		
6.0.4	Media

NewsCutter 11.0			
Software License	<b>YES</b>	<b>YES</b>	<b>YES</b>
NewsCutter 11.0			
Dongle License	<b>YES</b>	<b>YES</b>	<b>YES</b>

\* Customers who wish to run Symphony v5.5 or earlier will need to use a Symphony v5.5 dongle license, or a version-specific Symphony software license (e.g. to run Symphony v5.5, a v5.5 software license is needed.)  
 \*\*NewsCutter 11.0 includes Interplay connectivity by default.

### Software Licensing

#### · Downgrades:

##### Media Composer and NewsCutter

1. If you have activated Media Composer 7.0 or NewsCutter 11.0, uninstall the editing applicaiton without deactivating.
2. Install either Media Composer 6.0.4/6.5.3 or NewsCutter 10.0.4/10.5.3 using the Full installer and the software will already be activated to run.

##### Symphony

1. If you have activated Media Composer 7.0 and the Symphony Option, uninstall Media Composer 7.0 without deactivating.
2. Install Symphony 6.5.3 or 6.0.4 using the Full installer and the software will already be activated to run.

#### · New Installations:

- If you have not activated Media Composer 7.0 or NewsCutter 11.0 you can use the Activation IDs provided with your v7.0/11.0 purchase to activate v6.0.4/6.5.3 or v10.0.4/10.5.3.
- If you purchased the Symphony Option you can enter your Media Composer 7.0 System ID and Symphony Option Activation ID to activate and run Symphony 6.0.4/6.5.3

### Volume License Server Licenses (for Academic Institutions only)

#### · Downgrades:

##### Media Composer and NewsCutter

1. If you have upgraded your VLS to Media Composer 7.0 or NewsCutter 11.0, uninstall the client software without deactivating.
2. Install either Media Composer 6.0.4/6.5.3 or NewsCutter 10.0.4/10.5.3 using the Full installer, and the software will be already activated to run.

##### Symphony
